OBJECTIVE

Self-motivated and hardworking fresher seeking for an opportunity to work in a challenging environment to prove my skills and utilize my knowledge & intelligence in the growth of the organization.

PROJECTS

→ Cross Platform Application: Group Chat Program

- ◆ Built A multithreaded chat server using QT Framework with sqlite database for user profile storage and retrieval.
- ◆ Client chat application for Desktop and Android so that users from different platform can join the chat room.
- ◆ All the communication between users passes through the central server.
- ◆ Administrator can also login into the client app, see the user chat and block and unblock users from chatting.

→ Software For Desktop: GUI based File Locker

- ◆ Built a file locking application for Windows using QT Framework .
- ◆ The Application uses Windows' mandatory file locking mechanism.
- ◆ 3 level authentication for locking and unlocking files.

→ Website: A Torrent Website

- ◆ Built a full stack website, Frontend with HTML, CSS, Javascript and Backend with Python(Django framework).
- ◆ Features: User profile, File searching, downloading and uploading for registered users.

→ Snake Game

- ◆ The classic Snake game built using HTML, CSS, Javascript and P5js framework.

SKILLS

- **Web Development:** HTML, CSS, JavaScript, Python (Django).
- **Software Development:** C, C++, (Qt Framework), Python and Java.
- **Operating Systems:** Windows and Ubuntu Linux.
